

HESSSENTIA

La nostra storia

La Cornelio Cappellini è una "family company" nel settore dell'arredamento fondata dal Sig. Cornelio Cappellini durante gli anni cinquanta in Brianza, un'area vicino a Milano. Nei primi cinquant'anni di attività la Cornelio Cappellini si è dedicata alla realizzazione di mobili classici adottando tecniche di costruzione e finitura tramandate dalle generazioni passate. Il 2018 segna l'inizio di una significativa evoluzione verso prodotti e collezioni sempre più moderni, dove lusso ed eleganza sono in perfetta sintonia tra di loro. È con questo spirito che nasce la collezione HESSENTIA.

I nostri valori

Il concetto dell'abitare "Cornelio Cappellini" è un'idea capace di andare sempre oltre lo standard, oltre la ripetitività delle forme e delle proporzioni. Ogni pezzo si adatta ad ambienti unici all'interno di ville meravigliose o appartamenti di grande eleganza. È personalizzabile in ogni aspetto, forma, colore e materiale e si plasma nello spazio fino a diventare parte integrante. Alla fine del processo creativo di ogni nuovo pezzo siamo in grado di trovare il perfetto equilibrio tra ragione e sentimento. Ci lasciamo trasportare dai sogni e dalla passione che ci accompagnano da sempre, senza però dimenticare la ragione prima di mettere in produzione un nuovo pezzo.

Il nostro Design

Quando pensiamo ad un nuovo prodotto ci piace essere liberi, non avere limiti e la creatività deve sempre avere la possibilità di manifestarsi al meglio senza condizionamenti. L'arte penetra e si fonde in molti pezzi. Ogni reparto produttivo è come una bottega d'arte dove l'artigiano-artista sa plasmare le forme di ogni pezzo grazie ad un know-how straordinario tramandato di generazione in generazione.

Il Made in Italy

La richiesta di prodotti "Made in Italy" proveniente da un numero crescente di paesi esteri rafforza di giorno in giorno l'importanza e la convinzione di continuare a produrre ogni pezzo in Italia. L'elevato livello di manualità ad opera di esperte mani artigiane è insito in ogni prodotto e consente di superare il concetto di prodotto standard.

Our history

Cornelio Cappellini is an Italian "family company" of contemporary furniture founded by Mr. Cornelio Cappellini during the Fifties in Brianza, an area close to Milan. In the first fifty years of activity Cornelio Cappellini company was specialized in producing traditional furniture by adopting production and finishing techniques handed down by past generations. 2018 marks the beginning of an important evolution towards products and collections even more modern and contemporary where luxury and elegance are in perfect harmony with each other. Following this concept, HESSENTIA collection has been introduced.

Our values

"Cornelio Cappellini" philosophy of living is an idea capable of going beyond the standard concept, beyond the redundancy of shapes and proportions. Each piece adapts to unique ambiances inside wonderful villas or apartments of great elegance: it is customizable in every aspect, shape, colour, material and in this way becomes part of the space in which it is placed. At the end of the creative process of each new piece we are able to find the perfect balance between reason and feeling. We let ourselves be carried away by dreams and by the passion that has always accompanied us, without forgetting the reason before starting production of a new piece.

Our Design

When we think about a new product we like to be free without limits and the creativity must always have the opportunity to manifest itself without conditioning. Art penetrates and merges into many pieces. Every production department is like an artistic atelier where the artisan, like an artist, knows how to shape each piece thanks to an extraordinary know-how passed down from generation to generation.

Made in Italy

The demand for "Made in Italy" products from an increasing number of foreign countries reinforces day by day the importance and the conviction to continue to produce each piece in Italy. The high level of craftsmanship by skilled artisan hands is enclosed in each product and allows to overcome the concept of standard product.

HESSENTIA

Hessentia: la genesi

Il mercato cambia e anche i Brand devono seguirne l'evoluzione.

Nuovi prodotti, un concept contemporaneo e ricercato sono alla base del rebranding aziendale che ha portato all'introduzione del nuovo logo HESSENTIA in un processo di rinnovamento che ha visto in questi anni un'evoluzione stilistica decisiva.

HESSENTIA | Cornelio Cappellini amplifica e consolida la "vision" aziendale esaltando l'artigianalità e la sartorialità delle collezioni, espressioni di estrema ricerca stilistica e materica.

Il nome deriva dal latino "essentia", intesa come la sintesi della complessità che ne determina il pregio e l'ineimitabilità.

Il rebranding dell'azienda coinvolge tutta l'area marketing, dal potenziamento digitale a tutte le attività volte a rafforzare la "brand image".

Hessentia: genesis

Market changes and brands must also follow this evolution.

New products and a contemporary and refined concept are the basis of the company rebranding that led to the introduction of the new logo HESSENTIA in a process of renewal that has represented in recent years a decisive stylistic evolution.

HESSENTIA | Cornelio Cappellini highlights and consolidates the corporate vision by enhancing the craftsmanship and tailoring of the collections, expressions of careful stylistic and material research.

The name comes from the Latin "essentia", understood as the synthesis of the complexity that determines its value and uniqueness.

The corporate rebranding involves the entire marketing area, from digital enhancement to all activities aimed at strengthening the brand image.

Claudio Cappellini

Artist

Nato nel 1971 a Seregno, vicino a Milano, Claudio Cappellini ha dapprima frequentato due diverse scuole d'arte che hanno fortemente contribuito alla sua formazione professionale. Terminati gli studi la curiosità per il mondo dell'arte lo ha portato a viaggiare alla ricerca di ciò che la materia può esprimere. Una passione presente fin da quando era bambino al fianco del padre dal quale ha appreso l'esperienza nell'utilizzo di quei materiali nobili che oggi sono alla base della filosofia produttiva della Cornelio Cappellini. L'abilità e l'estro di Claudio si trasformano nell'unicità di ogni singolo pezzo che diventa il risultato della fusione di materiali, lavorazioni e finiture.
